Product Usage

These mops are great on any hard flooring surfaces for routine cleaning or quick clean-ups. Use the larger heavy-duty mop for larger floors or tough scrubbing applications, and the standard Wonder® Mop for smaller floors and quick clean-ups. Great for office breakrooms, room-to-room cleaning in hotels and resorts, and residential BSCs. These mops are also useful in situations where a traditional mop bucket with wringer is too much and too big to carry around.
