

New! Industrial Grade Reusable Rubber Gloves

#1244

Product Usage

These polychloroprene gloves mimic the elasticity and comfort of a latex glove with the heavy-duty strength of nitrile. Perfect for those who are allergic to latex. These gloves are great for tough industrial jobs and extended use due to their tear strength, chemical resistance, and comfortable fit. They also have excellent grip in wet conditions. Great for painting/stripping, cleaning, construction, auto care, and more.

#1244 Industrial Grade Reusable Rubber Gloves

- One size only L/XL
- Specialty blended rubber with polychloroprene – elastic and heavy-duty at the same time
- Textured grip to prevent slippage
- Flock lined interior wicks away perspiration
- Hardened shell for greater chemical and abrasion resistance
- Heavyweight, BPA Free
- 1 pair of gloves per unit pack
